

Assistive Technology - SWAAAC

The Poudre School District Statewide Assistive Technology, Augmentative, and Alternative Communication (SWAAAC) team provides assistive technology and augmentative/alternative communication support for students, parents, and school teams. In collaboration with school-based teams, SWAAAC team members provide assistance with:

- Assessing students' assistive technology and/or augmentative/alternative communication needs
- Accessing assistive technology and augmentative/alternative communication equipment and software
- Training staff, families, and students
- Decision-making with regards to assistive technology and augmentative/alternative communication systems and supports

Referrals to the SWAAAC team are generated by school teams based on student needs. Students typically referred to SWAAAC may have challenges related to:

- Difficulties producing work
- Understanding written information
- Verbal communication
- Physically interacting with their environment
- Effectively participating as a student
